

CYBER SECURITY

- KEEPING HOME WORKERS AND YOUR DATA SECURE -

Many home workers are using their own personal computers for work related activity.

However too many are under-protected or even not protected at all, putting businesses at risk from cyber threats.

EBC Group have put together 2 offers which will help your business manage the increased security threat.

ANTI-VIRUS

Business need to be able to provide protection to their users wherever they are working. Sophos Home Edition includes artificial intelligence to block advanced viruses, malware, exploits, and ransomware attacks.

FEATURES:

- **REALTIME ANTI-VIRUS**
- **BANKING PROTECTION**
- **PRIVACY & IDENTITY PROTECTION**
- **ADVANCED WEB PROTECTION**
- **ADVANCED MALWARE REMOVAL**
- **REMOTE MANAGEMENT**

OFFER

We are offering Sophos Home Commercial Edition program at no cost to customers with a Sophos account.

Sophos Home includes all the Premium security features in a package that is simple to use on employees' personal Macs and PCs.

WEB-FILTER & MFA

Businesses need to be able to extend the security capabilities to users and devices, no matter where they may be. WatchGuard's Passport is a bundle of user-focused security services that travels with your users.

FEATURES:

• **AUTHENTICATE**

People and enforce strong, multi-factor authentication into VPNs, Cloud applications, endpoints and more

• **PROTECT**

Users on the Internet, block phishing attempts and enforce web policy anywhere, anytime without requiring a VPN.

• **RESPOND**

By detecting and killing threats and malware, and contain ransomware and related command and control channels

OFFER

We are offering 120 days free of WatchGuard's passport product that offers web-filtering and Multi Factor Authentication (MFA) to your remote desktop (RDS) environment.

We can offer this based on a 12-month subscription or as part of an IT support contract.
